Creation Date: **Wednesday, April 10, 2019**

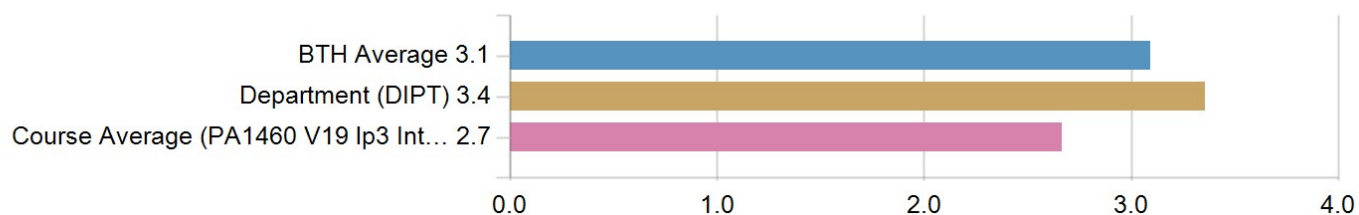

Course Index

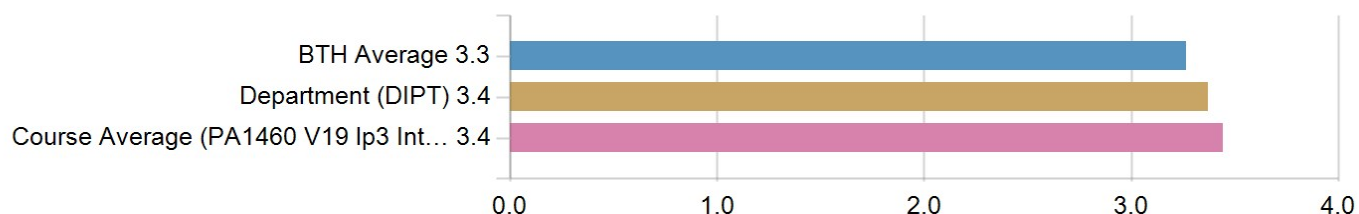

Core Questions

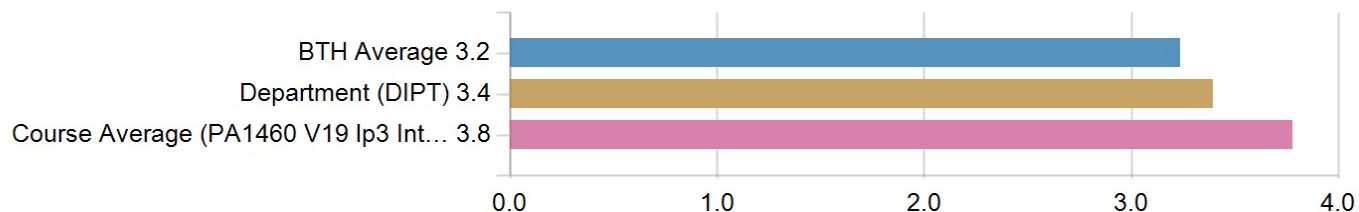

4. During the course, there has been active feedback which has been valuable to my studies.

5. The response from teachers and supervisors has motivated me in my studies.

6. The course has promoted dialogue and collaboration in the learning.

Best Evaluated Core Questions

Top Questions		
1	The course has promoted dialogue and collaboration in the learning.	3.8
2	The examination elements awarding credits in the course have given me the possibility to demonstrate that I have attained the course objectives.	3.6
3	The response from teachers and supervisors has motivated me in my studies.	3.4
4	The learning activities of the course have given me the possibility to attain the course objectives.	3.3
5	The structure and design of the course have been supportive of my studies	3.2
6	During the course, there has been active feedback which has been valuable to my studies.	2.7

Which changes could be done in order to increase the quality of the course?

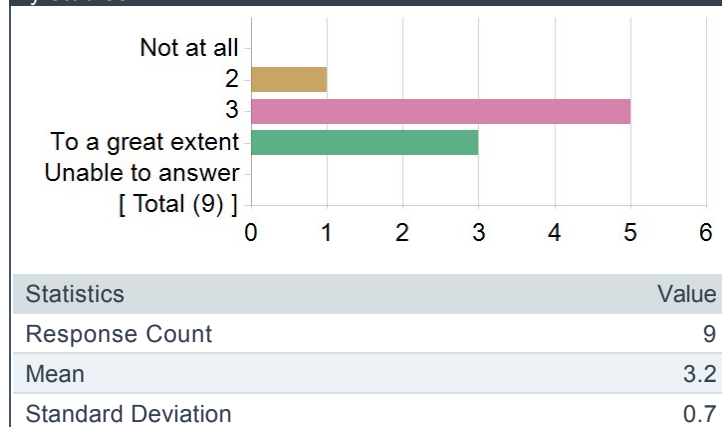

Comments
Hmm, jag tyckte att denna kurs var en av de bästa jag någonsin haft. Mikael som föreläsare är ytterst exceptionell. Så jag har inga synpunkter gällande förbättringar, utan hatten av för dig Mikael! =)
Jag tycker att det uppgifterna var lite för otydliga, samma sak med tentan... väldigt svårt att tolka vissa uppgifter.
Men som helhet tycker jag att kursen ändå är bra. Bra föreläsningar och inte alls för svår eller för lätt kurs!
Någon aktivitet i veckan där man jobbar med sina uppgifter och har tillgång till en lärare.
The course has been quite hard and is not very easy to follow. Since the course contains a lot of literary terms, maybe more time could be reserved in the lectures to more clearly define certain terms. Many of us have had a hard time understanding the terms and to put them in perspective.
Att man får feedback på en uppgift tidigare istället för att få feedback på 4 uppgifter samtidigt
Kände att många av inlämningsuppgifterna var alldeles för luddiga och svårtolkade.
Det skulle nog underlätta om det blev tydligare med vikten av att tänka själv och inte snöa in sig på ett visst sätt att göra saker. Upplevde i min grupp att många ville ha ett "facit" att gå efter, men det går ju inte riktigt i den här kursen.
None, good as it was
Personally, I wasn't fond of the structure of the assignments at all. I liked the final exam however. I would have liked to have more focus on smaller questions such as those in the final exam.

Detailed Results

The structure and design of the course have been supportive of my studies

Frequency Analysis

1. The structure and design of the course have been supportive of my studies

Jag fick mycket svar i gitter chatten på frågorna jag hade och man gå och fråga läraren om saker men jag tycker att 1–2 gånger i veckan ska det finnas någon/några "lektioner". Alltså, inte en föreläsning men där man har tillgång till en lärare och man arbetar med sina uppgifter. Det hade gjort uppgifter och saker lättare att förstå.
For the assignments, basically all we did was copy paste 80% of the finished work and then fill out the rest. I didn't like this at all. It didn't feel like we did our own thing.

The learning activities of the course have given me the possibility to attain the course objectives.

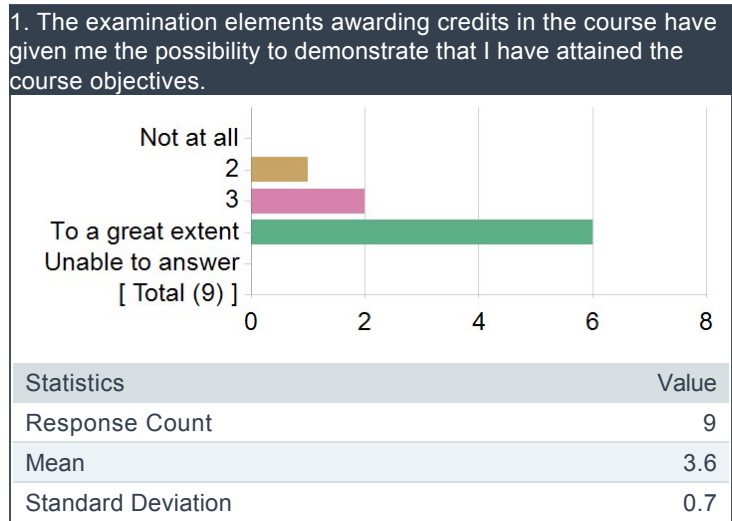

Frequency Analysis

1. The learning activities of the course have given me the possibility to attain the course objectives.

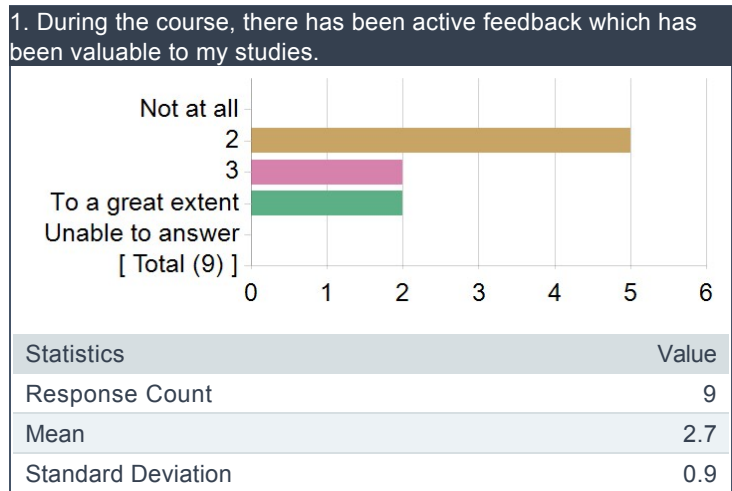

The examination elements awarding credits in the course have given me the possibility to demonstrate that I have attained the course objectives.

Frequency Analysis

During the course, there has been active feedback which has been valuable to my studies.

Tar alldeles för lång tid att få tillbaks resultatet på uppgifterna
The feedback has been a bit vague and hard to understand.
I took a long time to get the feedback. This was critical due to the assignments depending on each other. In order to do the next assignment, we had to have gotten the feedback for the previous one in time, which we didn't.

The response from teachers and supervisors has motivated me in my studies.

Frequency Analysis

1. The response from teachers and supervisors has motivated me in my studies.

Statistics	Value
Response Count	9
Mean	3.4
Standard Deviation	0.5

The teacher(s) for this course have been very quick and thorough on any and all questions sent through email, but not so much for giving feedback after assignments were turned in. (see above)

The course has promoted dialogue and collaboration in the learning.

Frequency Analysis

1. The course has promoted dialogue and collaboration in the learning.

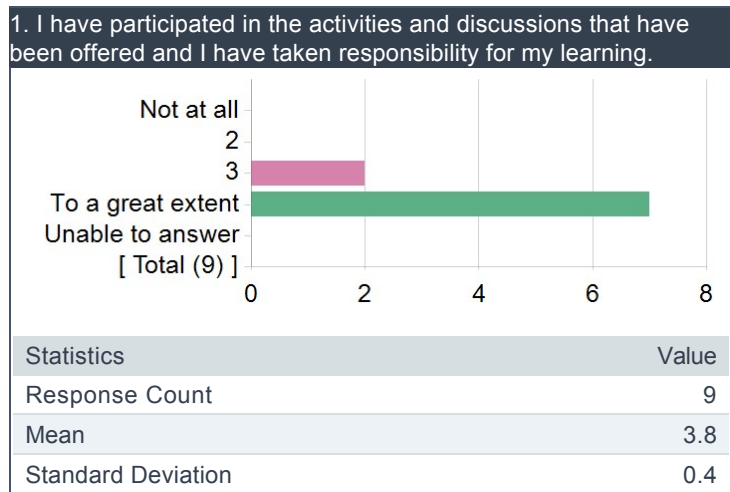

Statistics	Value
Response Count	9
Mean	3.8
Standard Deviation	0.4

Group assignments

I have participated in the activities and discussions that have been offered and I have taken responsibility for my learning.

Comments
I felt a bigger responsibility working with a group, so that part I took very seriously. I could have spent more time studying on my own, however.

Customized Questions Results

What would you like to see more of in the course?

Comments
Uppgifter i grupp kändes bra men gärna lite mer individuellt arbete, lite små uppgifter att lämna in kanske.
Tillämpning av Design Patterns och GRASP patterns
Getting to think of your own

What would you like to see less of in the course?

Comments
Tycker det var för många uppgifter för en 5p kurs
Oklara uppgifter
Half-finished assignments (see below)
