4	The structure and design of the course have been supportive of my studies	3.5
5	The response from teachers and supervisors has motivated me in my studies.	3.1
6	During the course, there has been active feedback which has been valuable to my studies.	2.8

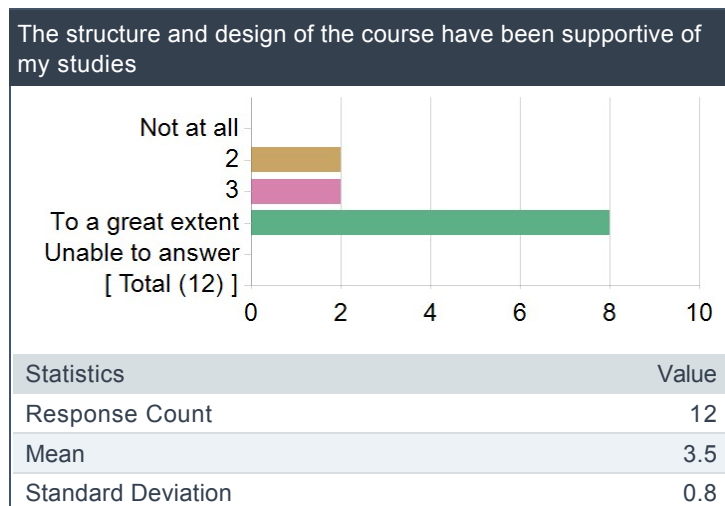

## Which changes could be done in order to increase the quality of the course?

Comments
More powerpoint slides and text about the interpretation of different diagrams
Give the feedback earlier otherwise the course was good
Det var lite svårt att få en överblick över kursen i början, men man förstod efter någon vecka att det var ganska lugnt.
kan man inte bara sammanfatta hela kursen på en 4 timmars föreläsning
m.
Don't know
I do not see any, I really liked the structure and that we from the beginning had all the material. Really good, I have learned a lot in this course
Faster feedback of the assignments!
Some of the task where hard to understand if you where doing the right thing or not since there is many different ways of doing each task. Maybe after the task upload a tip what is the most effecient way to do it, like a Controller, manager, builder etc.
n
Kortare men mer koncentrerade exempel. Det tar på en när ett exempel har många designmönster i ett och vara 50 hela minuter. Ta ett sådan stor exempel mot slutet av kursen (när man har hunnit ta tiden att kolla ordentligt igenom designmönster)

## Detailed Results

### The structure and design of the course have been supportive of my studies
